Program Objectives

- Provide education for professionals who serve the trauma rehabilitation community
- Provide education for individuals who have sustained traumatic injuries and their families
- Provide follow-up for people and their families who have sustained a moderate to severe traumatic brain injury
- Facilitate the continuity of care for traumatically injured patients as transition from acute care to acute rehabilitation
- Maintain the statewide TBI Registry
- Maintain the 24/7 Brain & Spine Call Center
- Facilitate and support partners who provide services for the trauma rehabilitation community

Vision and Mission

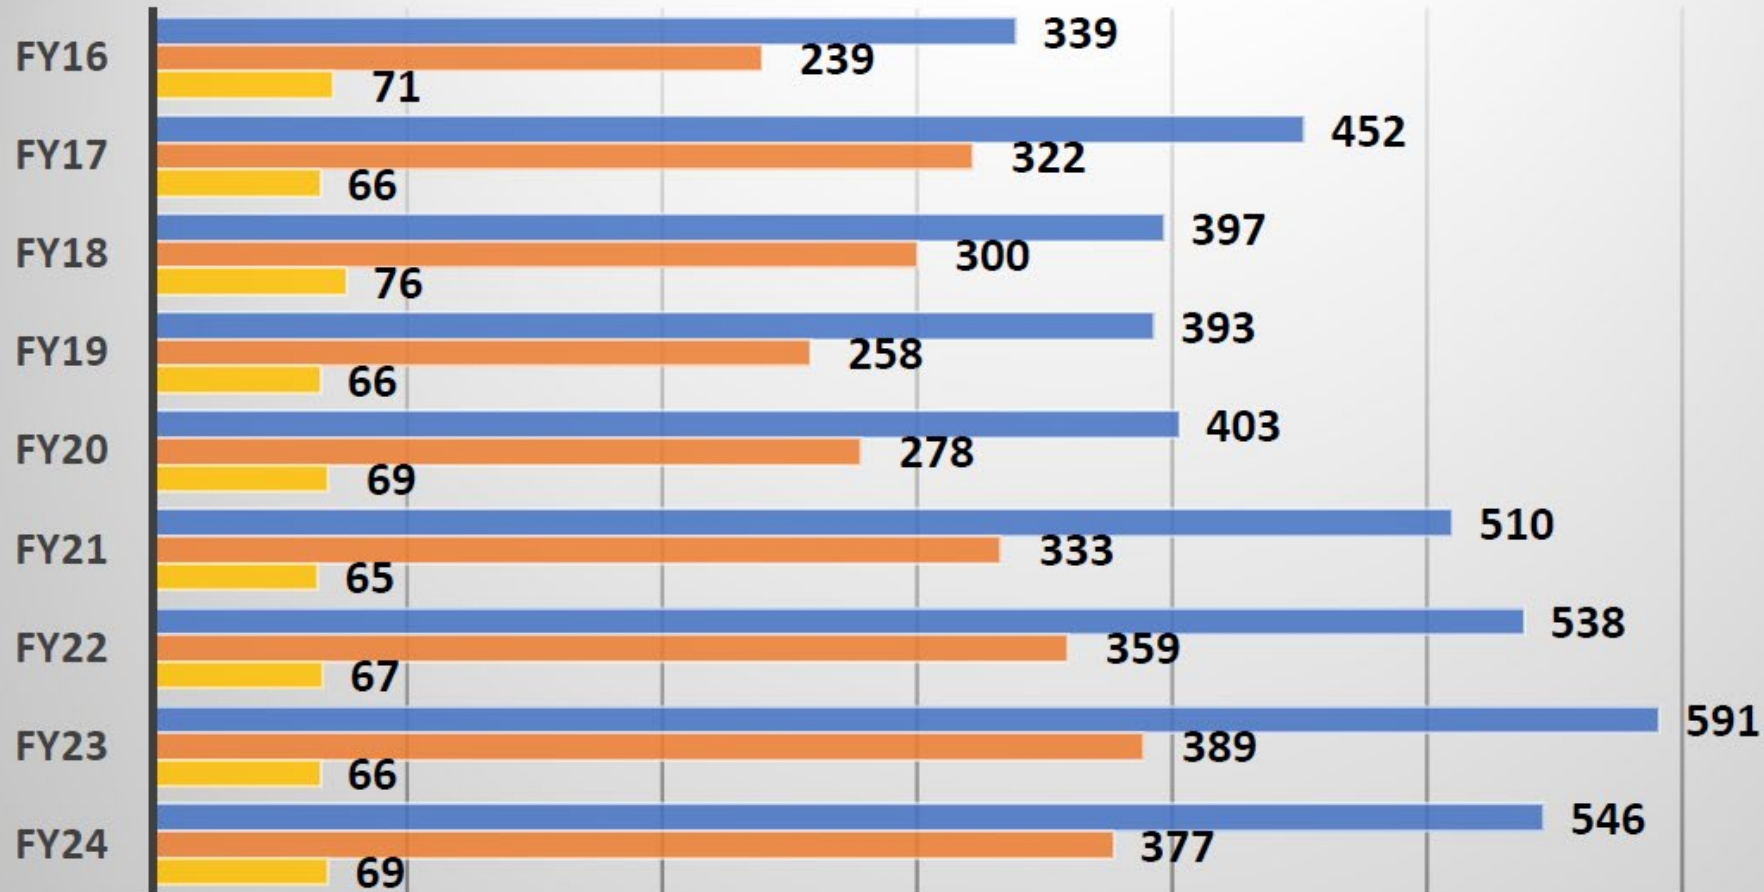

- Enable every Arkansan who has sustained a disabling traumatic injury
 - Access to the comprehensive rehabilitation care
 - Reintegration into the community
- Increase awareness of the rehabilitation and lifelong care needs of survivors of traumatic injuries
- Evaluate existing programs
- Educate healthcare professionals
- Identify vital resources for trauma survivors

Brain Injury Program
