Summary

We need to:

- Conduct five listening sessions across the state (regionally) to help solicit input from survivors and other stakeholders
- Conduct a TBI needs assessment via Survey Monkey (10 questions used by other states)
- Share goals and objectives in the state
- Collect demographics quarterly – age, ethnicity, gender by region (ATRP)

Review:

- Assessment tool – Ohio (evidence based outcomes)
- Use Iowa and Maryland to set goals/objectives – set 3 to 7 for Arkansas

Consider partnering with:

- Partners for Inclusive Communities
- Arkansas Coalition Against Domestic Violence
- Centers for Independent Living – information referral
